

PAUL B. HARING

CANDIDATE FOR 38TH DISTRICT (R)

Should Virginia use federal funding to expand Medicaid to bridge the gap between the current Medicaid program and qualifying for marketplace subsidies?

I have to study the facts before answering this question.

Should Virginia provide health care coverage for those under 18, regardless of immigration status?

I am for health care for everyone without specialized medicine.

Do you support state and/or local law enforcement agencies volunteer to become deputized ICE agents and enforce civil immigration laws by signing a 287(g) agreement?

I do not support requiring local law enforcement to become deputized ICE agents.

Should all age-eligible individuals who pass the driving exam be allowed a driver's license, regardless of immigration status?

No - There are benefits from allowing everyone who passes a driving exam receive a license, but if it would help terrorists attack us as in 9/11, such a law should not be passed.

Do you support policies that protect cooperating victims of crime and witnesses from routine immigration inquiries by law enforcement?

We need policies that will help protect all persons who are victims of crimes or cooperating witnesses. I would carefully consider more facts about the issue and do what appears to be best.

Should the minimum wage be raised to \$15 in Virginia?

I believe the minimum wage in Virginia should be raised, but if it was raised immediately to \$15.00 it seems that too many people would lose their jobs.

Should Virginia rescind its "right to work" law?

No - no comments

PAUL B. HARING

CANDIDATE FOR 38TH DISTRICT (R)

Should the state establish a new top tax rate bracket (current top bracket is \$17,000) and update our current brackets to account for inflation?

No - no comments

Should Virginia protect/expand funding for programs that benefit English Language Learners?

I favor helping all persons learn English.

Should college in-state tuition rates be available to any student who graduates from a Virginia high school, regardless of immigration status?

I favor in-state tuition rates for all students who meet the requirements regardless of their immigration status.

What strategies do you support to expand college affordability?

Professors should be required to teach more classes each semester and we should look at other ways to reduce the costs of operating colleges and implement cost savings actions. Education costs should not require heavy debts from students or parents.

What steps would you take to improve language access of state documents and agencies to English Language Learners?

Try to have people available who could communicate with English Language Learners in their native language and help them use free computer programs that could translate documents into their native language.

Do you support no excuse absentee voting?

No - Having normal voting spread out over weeks increases voter fraud, the costs of campaigns and conducting elections. It prevents people of learning of late candidate info that might be revealed.
